

DTC ENERGY GROUP, INC.
OILFIELD CONSULTING

Connecting Operators and Supervisors

DTC Energy Group is at the leading edge of drilling and completion operations for conventional and unconventional plays, including the Bakken, Three Forks, Niobrara, Marcellus, Utica, Eagle Ford, Bone Springs and Wolf Camp. From basic vertical drilling to 28,000-foot horizontal wells, and from two-stage completions to some of the largest frac jobs in the U.S., DTC Energy supervisors have the field experience and industry expertise to effectively manage any job in any region.

Proven Oilfield Consultants

DTC Energy is a proven oilfield consulting firm headquartered in Denver, Colorado. As an employee based company, DTC has extensive experience providing onsite supervision as well as project and operations management services to oil and gas operating companies throughout the United States. Our supervisors and project managers possess the training, knowledge, and leadership skills to manage your operation, with strict adherence to drilling and completion practices and safety standards. We are dedicated to ensuring the experience level and personality of our supervisors provide the best quality match with your drilling or completions program.

DTC Energy also offers technical and financial advisory services pertaining to the petroleum interests of non-operating

companies such as capital funds groups, investment banking firms, private equity groups and restructuring specialists. Our advisory capacity is well suited to large international groups as well as smaller U.S.- and Canadian-based firms.

Qualified Solutions

From permitting to the pipeline, DTC Energy provides qualified solutions to optimally manage complex petroleum operations wherever they're located.

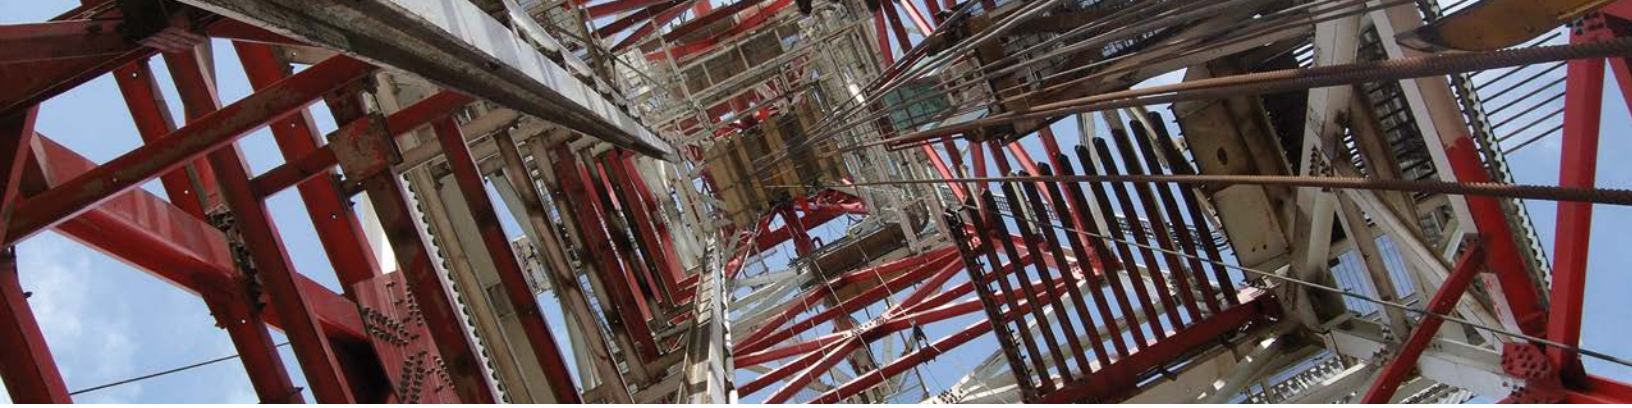

Safety First

DTC Group is committed to protecting people, property, and the natural environment. It is the responsibility of every consultant to adhere to and enforce these policies. Our supervisors work diligently to enforce safety standards and instill the spirit of regulatory and safety compliance.

"Members of our management team were among the first to drill and complete horizontal wells in North Dakota, southeastern Wyoming and the Front Range of Colorado. Today, DTC drilling and completion supervisors are significantly improving operations and safety in every major U.S. shale play."

Luke Clausen, Chief Operating Officer DTC Energy
