## Spring TMS Total Migraine System

Safe • Effective • Easy to Use • Portable • Convenient

The SpringTMS™ Total Migraine System is the only non-drug therapy clinically proven to effectively stop or reduce migraine at the first sign of pain.

The SpringTMS Total Migraine System is safe to use, with no unwanted or serious treatment-related side effects. Published studies show that it treats migraines as effectively as current drug therapies, and may eliminate or reduce your need for medications.

To help you and your doctor better manage your migraines, this portable, easy-to-use device automatically records your treatment history and provides a convenient **headache diary** that you can fill out after each treatment or at any time after your migraine subsides. Diary information can then be uploaded to your personal **online journal**.
