Orion Marine Group is a leading heavy civil marine contractor headquartered in Houston, Texas. We offer a wide range of services and turnkey solutions in marine construction, design, and specialty services on, over, and under the water throughout the continental United States, Alaska, Canada, and the Caribbean Basin.

Marine Environmental Structures

Our collective industry experience leaves us uniquely qualified to address environmental structure projects from design through delivery, including shoreline protection, wetland creation, erosion control, and environmental remediation. Our long history of on-time completions and excellent safety record are benchmarks of Orion Marine Group customer satisfaction.

Capabilities

Shoreline Protection
 Wetlands Creation
 Erosion Control

Levee installation
 Environmental Remediation
 Concrete Mattress Installation

GeoTube® Installation
 Sea-Grass Bed Creation

Project Highlights

Bonita Beach Renourishment
 Bonita Springs, Florida
 Placed over 450,000 cu yds of material along 5,800 feet of beach front property for Lee County.

Custom Plywood Remedial Action Phase II
 Anacortes, Washington
 Mechanical dredging and upland disposal of contaminated sediment.

Environmental Mitigation, Intra Coastal Waterway
 Ft. Pierce, Florida
 Clear/grade land, plant new native vegetation to create natural habitat areas. Mitigation for 2 Florida DOT bridge projects crossing waterway.

Beach Renourishment
 Indian Shores Beach, Florida
 Dredge/place 120,000 cu yds of sand via conveyor system. Conveyor engineered by Orion Marine Group subsidiary Misener Marine Construction.

Bird Island Creation
 Savannah, Georgia
 Pump sand from U.S. Army Corps of Engineers spoil area to create island habitat for birds.

CIAP Lake Leary Marsh Creation
 St. Bernard Parish, Louisiana
 Marsh creation project that will raise 87 acres approx. 3 feet to facilitate shoreline stabilization for the Delacroix, LA community.

Intake Erosion Protection, Buffalo Bayou
 Houston, Texas
 Construct sheet pile stabilization wall to provide erosion protection.

Unalakleet Erosion Control
 Unalakleet, Alaska
 Installation of scour protection.

Beneficial Use Site Creation, Gulf Intracoastal Waterway
 San Antonio Bay, Texas
 Construct GeoTube-contained beneficial use site for dredged material.

Environmental Mitigation, Levee Construction
 Lavaca Bay, Texas
 Construct 1 million cu yds of compacted levees using 200,000+ T of rip-rap to provide erosion protection.

Flood Control
 Houston, Texas
 Install complex arrangement of cellular concrete mattresses for optimal flood control and erosion protection.

Orion Marine Group offers a comprehensive range of end-to-end services and custom turnkey solutions to meet even the most exacting customer specifications. We work collaboratively with customers to create solutions that achieve not only their immediate goals, but bring long-term value to their investment.

Our Fleet

Orion Marine Group owns, operates, and maintains a fleet of more than 400 pieces of specialized marine equipment. This ensures the right equipment is available and operating at peak efficiency whenever and wherever there's a job to be done.

Spud Barges

Orion Marine Group operates over 60 spud barges. These floating platforms, together with a crawler crane, are a model of efficiency and a go-to solution for shallow water projects.

Cranes and Other Equipment

Our fleet of more than 200 cranes and associated pieces of equipment are a marine construction staple for heavy lift operations. It enables us to maximize operational efficiencies by streamlining repairs and increasing equipment uptime.

Dredge Fleet

Our state-of-the-art dredge fleet includes cutter suction dredges and portable dredges strategically positioned to meet customer needs. To ensure maximum performance while on the job, many of our dredges are equipped with electronic monitoring systems, which measure performance accuracy in real-time. Our fleet also includes a fully electric non-emission dredge able to operate on 100% onshore power. This makes it ideally suited to environmentally sensitive projects.

Tug and Push Boats

Our fleet of more than 60 boats provides total operations support, delivering a full spectrum of in-house tug and push capabilities that ensure the right equipment gets to the job site at the right time.

Orion Marine Group offers a comprehensive range of services and custom turnkey solutions to meet even the most exacting customer specifications. We work collaboratively with customers to create solutions that achieve not only their immediate goals, but bring long-term value to their investment.
